PROFILE

I build frontends, DSLs, and IDEs. At TypeFox that means VS Code extensions, the LSP, and the IDEs around them; on my own time it means products: Prami, Healthstack, and VailNote. Alongside the job, a full-time Bachelor's in Computer Science and Sociology at Kiel University.

EXPERIENCE

Software Engineer
2025 - Present

TypeFox GmbH · Kiel, Germany

- Developer tooling for clients: VS Code extensions, language servers, Langium DSLs, and the IDEs around them.
- Frontend for client projects in large, international teams: Baukasten components and interfaces.

Freelance Software Engineer
2022 - Present

Self-employed · Remote

- Client work: the official BIPoC Climate Justice Conference site (2024, 2025) and small-business sites.

Software Engineer, part-time
2022 - 2024

TypeFox GmbH · Kiel, Germany

- Frontend architecture and language engineering. Joined as an intern in 2022 and stayed on part-time.

Economic Advisor Internship, A.S.I
2 weeks, on-site

PROJECTS

Prami
prami.app →

Active recall and spaced repetition, engineered so the review schedule fades into the background. In testing.

NEXT.JS · PWA · TYPESCRIPT

Healthstack
emilkrebs.dev/healthstack →

A specialized IDE for lifestyle optimization on Eclipse Theia: biomarker tracking, unit conversion, and a purpose-built DSL for intervention protocols. Its language server runs in your browser.

THEIA · LANGIUM · TYPESCRIPT · ELECTRON

VailNote
vailnote.com →

Encrypted note sharing with zero-knowledge encryption and self-destructing notes.

TYPESCRIPT · FRESH · DENO · MONGODB

WatchLock
github.com/emilkrebs/WatchLock →

Lock your phone with your smartwatch. Built for personal security on WearOS and Android.

KOTLIN · ANDROID · WEAROS

Open source contributions
github.com/emilkrebs →

Eclipse Langium: the state machine, arithmetics, MiniLogo, and domain model showcases on langium.org, the playground upgrade to Langium 4.1, and fixes in the core. Deno Fresh: CSP and security-header middleware. Beyond these, I contribute to other open-source projects.

SKILLS

LANGUAGES	TypeScript, Java, Kotlin, Python, C#
WEB & MOBILE	Next.js, React, Node.js, Deno, Android (Kotlin, WearOS)
DATA & OPS	PostgreSQL, MongoDB, Git, GitHub Actions
SPOKEN	German (native), English (fluent), Spanish (limited proficiency)

EDUCATION

B.Sc. Computer Science & Sociology, Kiel University
2025 - Present
